- Item
- Value / Qty and Weight

Transactional Promotional Discount Applied Across Promotion

If the reward of the promotion is across the transaction, then the value benefit is proportionally split across all items within the promotion, therefore supplying the correct reporting of discounts across all products

Prioritise Promotions

The *same* item can appear in many promotions

Promotions Offered

Benefits received by both direct value or percentage discount

Fully Integrated

The promotions module works alongside all RMSynergy Modules including Customer Price Matrix
